This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Amati UK Listed Smaller Companies Fund (the "Fund"), B Accumulation, a fund within WS Amati Investment Funds (the "Company") (ISIN: GB00B2NG4R39)

Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term (periods of 5 years or more).

Investment Policy

At least 80% of the Fund will typically be invested in shares, equity-related securities or bonds in or issued by UK smaller companies. For these purposes, UK companies are companies incorporated or domiciled in the UK, or companies that are listed, quoted or admitted in the UK. Smaller companies are companies which form the bottom 10% of the UK equity market by market capitalisation.

The Fund may also invest (up to 20%) in shares, equity-related securities or bonds in or issued by companies which are not UK smaller companies, money market instruments, cash or near cash. There may be occasions when the Investment Manager chooses to hold large degrees in these asset classes in order to protect returns in certain market conditions (e.g. severe market downturns).

Up to 10% of the Fund may be invested in collective investment schemes (which may include those managed or operated by the ACD and its associates).

The Fund is actively managed, taking into account the Investment Manager's views on growth opportunities and prevailing market conditions. In selecting investments for the Fund, the Investment Manager will consider target companies' corporate governance, as well as broader environmental and social considerations, including human rights. While these factors alone do not ultimately determine the selection of investments made within the Fund, they do form an integral part of the process of identifying the risks and opportunities associated with such investments.

Essential features of the Fund:

- Investors can redeem units on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.
- The Fund is not managed to generate an income. Any income arising from the Fund is reinvested. In other words all units are accumulation units.
- Derivatives may be used for Efficient Portfolio Management purposes to reduce risk or cost or to generate additional capital or income.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

Risk and reward profile

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.
- The Fund has been classed as 6 because its volatility has been measured as above average to high.

- The share class is in the above risk category because it invests in shares.
- Smaller companies' securities are often traded less frequently than those of larger companies, this means they may be more difficult to buy and sell. Their prices may also be subject to short term swings.
- The lowest category does not mean a fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- The movements of exchange rates may lead to further changes in the value of investments and the income from them.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|-------|
| Entry Charge | None |
| These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this. | |
| Exit Charge | None |
| Charges taken from the Fund over the year | |
| Ongoing Charges | 0.90% |
| Charges taken from the Fund under certain specific conditions | |
| Performance Fee | None |

The ongoing charges figure is based on expenses as at 31 January 2024.

The figure may vary from year to year. It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.

For details of the actual charges, please contact your financial adviser/distributor.
