EDENTREE UK EQUITY OPPORTUNITIES FUND

SHARE CLASS B GB0008446063

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

This fund is a sub-fund of EdenTree Investment Funds – Series 1, an open ended investment company managed by EdenTree Investment Management Limited as the Authorised Corporate Director.

OBJECTIVES AND INVESTMENT POLICY

To achieve long-term capital growth over five years or more with an income.

The EdenTree UK Equity Opportunities Fund aims to invest at least 80% in a range of UK incorporated companies whose primary listing is in the UK which the Manager believes offer good potential for long-term capital growth. The portfolio will consist of at least 80% listed securities with a bias towards small and mid-cap companies and those that the Manager considers are undervalued opportunities. The Manager may also invest in units in collective investment schemes, money-market instruments, derivatives and forward transactions, deposits, nil and partly-paid securities, bonds, convertible bonds, cash and near cash as deemed economically appropriate to meet the Fund's objective.

The Fund seeks to invest at least 70% in companies which the Manager believes operate as sustainable businesses. It will therefore identify companies with positive sustainable business characteristics, by following EdenTree's Sustainability Approach.

There are certain sectors and economic activities where we consider the sustainability risks fundamentally misaligned with EdenTree's Sustainability Approach. We therefore apply baseline exclusions to actively exclude such companies from our investment universe. The Fund will avoid investment in companies which have a material involvement (10% or more) in alcohol and tobacco production, conventional weapon production, gambling, publication of violent or explicit materials, intensive farming, fossil fuel exploration and production and high interest (sub-prime) lending. It will also avoid companies that have exposure to the manufacture of unconventional weapons where these are defined as nuclear, biological and chemical weapons, land mines and cluster bombs. Finally, the Fund will seek to avoid companies using animals to test cosmetic, beauty or household products. We do not currently intend to use derivatives for any purpose other than the efficient management of the Fund. Derivatives are financial instruments that can provide ways of benefiting from movements (up or down) in the price of underlying assets, such as stocks or bonds, without taking ownership of the assets themselves.

You may buy and sell shares on any day on which the London Stock Exchange is open for business.

Any income on the Fund will be paid out to you or you may choose to have it reinvested by purchasing additional shares.

The Fund may not be appropriate if you plan to withdraw your money within 5 years.

Details of the Fund's Sustainability Approach and more information on our baseline exclusions can be found in the Prospectus and the Fund's Sustainability Disclosure which are available at www.edentreeim.com/literature

RISK AND REWARD PROFILE

Lower risk = Typically lower rewards
Higher risk = Typically higher rewards

- The risk category above is not a measure of capital loss or gains, but of how very significant the rises and falls in the Share Class price have been historically.
- For example a Share Class whose price has experienced very significant rises and falls will be in a higher risk category, whereas a Share Class whose price has experienced less-significant rises and falls will be in a lower risk category.
- As the Share Class risk category has been calculated using historical data, it may not be a reliable indication of the Share Class future risk profile.
- Please note that the Share Class risk category may change in the future and is not guaranteed. The lowest risk category does not mean a risk-free investment.
- The Share Class is in risk category 6 as its price has experienced very significant rises and falls historically.

What risks are associated with this fund?

- The value of your investment and the income you get from it may fall as well as rise and you could get back less than you put in. What you get back when you cash in your investment will depend on investment performance.

More details on all of the risks mentioned above can be found in the full Prospectus.

CHARGES FOR THIS FUND

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
