

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Aegon Diversified Monthly Income Fund a sub-fund of Aegon Asset Management UK ICVC Sterling Class B - Income shares (ISIN: GB00BJFLR106)

This fund is managed by Aegon Asset Management UK plc (the authorised corporate director ("ACD")).

#### Objectives and investment policy

**Objective:** to generate income with a target yield of approximately 5% per annum, with the potential for capital growth over the medium term (being any 5 year period). By investing in the Fund, capital is at risk. There is no guarantee that the Fund will generate this, or any other level of income or returns

**Policy:** The Fund is a flexible multi-asset fund that invests across a range of asset classes on a global basis, taking into account factors such as global economic trends and growth opportunities. As a result, at any one time the Fund may be diversified across asset classes, sectors, currencies or geographies in various proportions.

At least 80% of the Fund will usually consist of equities, corporate bonds and government and public securities. The typical level of investment in equities will be between 20-60% of the Fund's value.

The Fund may invest up to 20% in contingent convertible bonds (CoCos) being a type of bond which has the potential to convert to equity dependent/contingent upon a specific event. To the extent not fully invested in the main asset classes above, the Fund may invest in other transferable securities, collective investment schemes (up to 10% of Net Asset Value and including schemes managed by the ACD or its affiliates), derivatives, money market instruments, cash and near-cash.

Through these investments, the Fund may obtain indirect exposure to property, commodities and other specialist asset sectors, such as companies that specialise in aircraft leasing, infrastructure and renewable energy.

Derivatives may be used for investment purposes, for example exposure to assets may be gained through the use of derivatives (including long and short

positions for the purposes of adjusting risk exposures). Derivatives may also be used for efficient portfolio management (including hedging to reduce currency risk).

The Fund may invest in assets denominated in any currency. Non-Sterling exposure will typically be hedged back to Sterling to reduce currency risk but the Fund is permitted to take active non-Sterling exposure.

The Fund is actively managed and can invest in companies of any market capitalization (small, medium or large) and in any industry sector.

Through diversification, the Fund also looks to achieve lower volatility (i.e. changes in value) than global equities.

#### Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives may be paid out every month.

The Fund is not managed in reference to any index or benchmark. The ACD may use the MSCI World Index to measure the Fund's volatility against global equities. This is undertaken only for reference and comparison. The ACD does not use the Index as a target and the Fund's portfolio is not constrained by the Index.

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

#### Risk and reward profile

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which funds of this type changed in the past. This Fund has the above risk/reward rating because the price of shares and bonds can be affected by political or economic events, changes in exchange rates and changes in interest rates. Funds in category 4 have in the past shown moderate volatility. With a fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

**Credit:** An issuer of bonds may be unable to make payments due to the Fund (known as a default). The value of bonds may fall as default becomes more likely. Both default and expected default may cause the Fund's value to fall. High yield bonds generally offer higher returns because of their higher default risk and investment grade bonds generally offer lower returns because of their lower default risk.

**Liquidity:** The Fund's value may fall if some investments, especially in smaller companies or high yield bonds, become more difficult to trade or value due to market conditions or a lack of supply and demand.

**Counterparty:** Investments such as derivatives are made using financial contracts with third parties. Those third parties may fail to meet their obligations to the Fund due to events beyond our control. The Fund's value

could fall because of: (i) loss of monies owed by the counterparty; and/or (ii) the cost of replacement financial contracts.

**Other markets:** The Fund may invest in countries which have less developed political, economic and legal systems and which provide fewer investor protections. Difficulties in buying, selling, safekeeping or valuing investments in such countries may reduce the value of the Fund.

**Concentration risk:** The Fund may invest more than 35% of its value in securities issued by a single Government or other Public issuer. Holding a limited number of underlying investments means a change in the value of any one investment has more impact on the Fund's value. This increases potential gain but also potential loss.

**Equity Risk:** The fund's equity allocation will likely be more volatile than its other assets and their value may fluctuate quite dramatically in response to the activities and results of individual companies, as well as wider market and economic conditions.

**Derivatives:** The value of derivatives depends on the performance of an underlying asset. Small changes in the price of that asset can cause larger changes in the value of the derivative. This increases potential gain but also potential loss.

**Foreign Exchange Risk:** The Fund's portfolio of investments may be denominated in a range of currencies which differ from the Fund's base currency. Fluctuations in these currencies may increase the risk of losses to the Fund where hedging is not used or is incomplete or unsuccessful.

**Fund charges:** The Fund charges its fees against capital, which will increase the amount of income available for distribution to Shareholders, but may constrain capital growth.

**Interest Rate Risk:** Bond values are affected by changes in interest rates. When interest rates rise, the value of the Fund is likely to fall.

Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

### Charges taken from the Fund over a year

Ongoing charges	0.58%
-----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2025. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Switches or Conversion: 1st 4 in any calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Prospectus.

## Past performance

■ Sterling Class B (GB00BJFLR106)

Past performance is not a guide to future performance.

Fund launch date: 25 February 2014

Share class launch date: 25 February 2014

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Note: On 7th September 2020 the name of the Fund changed from Kames Diversified Monthly Income Fund to Aegon Diversified Monthly Income Fund.

## Practical information

Aegon Asset Management UK ICVC is a UK UCITS scheme structured as an umbrella company with various sub-funds, with segregated liability between sub-funds. This document describes one sub-fund of the UK UCITS; the Prospectus and the Report and Accounts are prepared for the entire UK UCITS. You can exchange your holdings into another share class of the Fund, or another sub-fund of the UK UCITS, at any time. More detailed information on exchanging can be found in the 'Buying, Redeeming, Switching and Conversion of Shares' section of the Prospectus.

The assets and liabilities of the Fund are segregated by law. Accordingly, the assets of this Fund belong exclusively to it and may not be used to meet the liabilities of, or claims against, any other fund within the Aegon Asset Management UK ICVC. Any liability incurred on behalf of, or attributable to, the Fund shall be discharged solely out of the assets of the Fund.

The depositary is Citibank UK Ltd.

The prices of shares will be published daily on our website ([www.aegonam.com](http://www.aegonam.com)).

Further information about the Fund and copies of the Prospectus and the latest Annual and Semi-Annual Report and Accounts can be obtained, free of charge, on our website ([www.aegonam.com](http://www.aegonam.com)). These documents are available in English.

You should be aware that tax legislation in the UK (where the Fund is authorised) may have an impact on your personal tax position.

Aegon Asset Management UK plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Details of the up to date remuneration policy of Aegon Asset Management UK plc ("the Company"), including but not limited to a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits, are available at [www.aegonam.com](http://www.aegonam.com). A paper copy will be available free of charge upon request at the registered office of the Company.
